Glasgow

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

---

Front-end developer focused on creating responsive, interactive, and visually engaging websites using HTML, CSS, JavaScript, React, and Tailwind CSS. Passionate about building creative web projects and continuously expanding skills with tools like Sass, Bootstrap, and jQuery. Aspiring to grow into a skilled full stack developer.

## Education

### High School Diploma at Hillpark Secondary School, Glasgow , United Kingdom

June 2025 - May 2026

Currently completing high school with a focus on subjects like Computer Science and Mathematics. Passionate about developing programming skills through personal projects and online learning. Actively building a foundation for a future career in software development and web technologies.

## Self-Taught & Online Courses

July 2024 - Present

Driven by a strong passion for technology, I am actively teaching myself web development through hands-on projects, online courses, and tutorials. I focus on mastering front-end technologies like HTML, CSS, JavaScript, React, and Tailwind CSS, while continuously exploring new tools such as Sass and jQuery. This self-guided learning journey helps me build practical skills and prepare for a future full stack developer role.

## Projects

### Arabic Alphabet Web App | React, CSS , Vite • [↗](#)

- Designed and developed an educational React app to teach Arabic letters using audio.
- Implemented interactive UI using React and CSS, with child-friendly design principles.
- Deployed the app using GitHub Pages and optimized for mobile and tablet users.

### Mini Game Collection | HTML, CSS, JavaScript • [↗](#)

Created a landing page hosting various mini-games, including Memory Match and Guess the Word. Emphasized modular project structure, clean UI, and responsiveness.

### Special Design Website | HTML, CSS, JavaScript • [↗](#)

Special Design is a creative front-end project built with HTML, CSS, and JavaScript, showcasing a visually appealing, animated personal or landing page. The design emphasizes clean layout, smooth animations, and responsive elements that adapt across screen sizes.

## Skills
